

ASSIGNMENT 1

QUESTION

Perform Requirement Elicitation for a Food Delivery System.

- (a) List the stakeholders involved.
- (b) List the functional and non-functional requirements.

SOLUTION

(a) Stakeholders:

- End Users
- Proprietors of Restaurants
- Culinary Staff
- Delivery Associates

(b) Functional Requirements:

(a) End Users:

- Explore available dining establishments
- Submit food orders
- Monitor the progress of their orders
- Complete payment transactions

(b) Proprietors of Restaurants:

- Administer menu offerings
- Access and review incoming orders
- Modify the status of orders

(c) Culinary Staff:

- Receive order notifications
- Prepare meals as requested
- Update the status of food preparation

(d) Delivery Associates:

- Accept delivery assignments
- Monitor the status of deliveries
- Update the status of deliveries

(c) Non-Functional Requirements:

- **Performance:** The system must support at least 1,000 simultaneous users.
- **Security:** All user information shall be securely encrypted.
- **Usability:** The user interface must be clear, intuitive, and straightforward to use.
- **Availability:** The system must maintain an uptime of no less than 99.9%.
- **Scalability:** The system must be capable of expanding to accommodate increased demand during periods of high usage.
