

ASSIGNMENT 1

QUESTION

Perform Requirement Elicitation for a Food Delivery System.

- (a) Identify the stakeholders associated with the system.
- (b) Enumerate the functional and non-functional requirements.

SOLUTION

(a) **Stakeholders:**

- Customers
- Proprietors of Restaurants
- Culinary Staff
- Delivery Personnel

(b) **Functional Requirements:**

(a) **Customers:**

- Explore available restaurants
- Submit food orders
- Monitor the status of their orders
- Complete payments

(b) **Proprietors of Restaurants:**

- Administer menu offerings
- Access order information
- Modify the status of orders

(c) **Culinary Staff:**

- Receive order notifications
- Prepare meals
- Update the status of food preparation

(d) **Delivery Personnel:**

- Accept delivery assignments
- Monitor the progress of deliveries
- Update the status of deliveries

(e) **Non-Functional Requirements:**

- **Performance:** The system must support at least 1000 users simultaneously.
- **Security:** All user data shall be encrypted.
- **Usability:** The user interface must be clear and straightforward to use.
- **Availability:** The system must maintain an uptime of 99.9%.
- **Scalability:** The system must be capable of accommodating increased demand during peak periods.
